ATU PROSPER
Software Engineer (Frontend)

PROFILE

I am a smart-working Software Engineer (Frontend) with a flair for creating elegant and quality solutions in the possible least amount of time. I have over four (4) years of experience as a WordPress Developer and Graphics Designer. I have over two (2) years of experience building the web using React.JS, Next.JS and Gatsby.JS, and I have also done some backend development using ExpressJS and StrapiCMS.

I also write about my experience as I learn and build. I strive to follow best practices and use industry-standard tools, including Git-Flow, Test Driven Development, Continous Integration (Github Action), Linting (ESLint), Code Formatting (Prettier), Package Management (NPM) and Build Tool (Webpack).
